

## When? / Project period

1/9/2015 - 31/8/2018

## Why? / Project objectives

The aim of the project is to encourage and support adult education and vocational training in accessible tourism and thereby contribute to the improvement of accessibility of tourist services and facilities for all.

Accessibility helps to maintain and develop quality, sustainability and competitiveness. Travelling is fully considered as one of the fundamental rights of every individual and

should be accessible for each citizen. For that to happen not only do facilities have to be accessible, but also people working in the tourism industry have to be well trained and open to the customers with access needs. It requires managers and stakeholders who are acquainted with the concept of tourism for all and motivated to realising this goal.

## What? / Project activities

Key action and field: Cooperation for innovation and the exchange of good practice, Strategic Partnerships for adult education
