

BEST PRACTICE IN ACCESSIBLE TOURISM

Inclusion, Disability, Ageing Population and Tourism

Edited by Dimitrios Buhalis (Bournemouth University), Simon Darcy (University of Technology, Sydney) and Ivor Ambrose (European Network for Accessible Tourism - ENAT)

Review

"In 25 chapters, Best Practice in Accessible Tourism provides a 'state-of-the-art' assessment of both theory and practice. This book establishes a new field of study and provides the benchmark against which other contributions will be judged. It integrates the work of all the key players and should be read by academics, managers and government policy makers."

Noel Scott, University of Queensland, Australia

Description

This book brings together global expertise in planning, design and management to inform and stimulate providers of travel, transport, accommodation, leisure and tourism services to serve guests with disabilities, seniors and the wider markets that require good accessibility. Selected country reports, detailed case studies and technical guidance from leading experts provide an essential resource for academics and practitioners.
