2020 – The first year of COVID-19

Source: World Tourism Organisation (UNWTO)

Ever-rising numbers of tourist arrivals (- until COVID-19)

International tourist arrivals: actual data and scenarios. COVID-19 impact study (UNWTO)

Despite the impact of the COVID-19-Pandemic on tourism and on the tourism activities of the DBSV accessible tourism remains an important issue for the organisation. It covers all aspects of accessible mobility and is – according to articles 9 and 30 of the UN Convention on the Rights of Persons with Disabilities – an indispensable element of inclusion.

The Covid-19-Pandemic resulted in additional difficulties for blind and partially sighted travellers because, for example, assistance services were not sufficiently available. Moreover, many conferences and expert meetings in which DBSV used to participate were cancelled or, at the best, postponed and/or carried out virtually.

The first congress cancelled was the “Accessible Tourism Day” that was annually carried out during the ITB International Travel Fair Berlin since 2012, an event in which a huge audience of tourism professionals could be addressed.

For the same reason the regular “PRM-Dialogue” established in 2015 by the German Aviation Association in which besides several disability organisations, the German National Association of Senior Citizens, and representatives of airlines and airports are engaged did not take place in 2020 as well.

ENAT Members' Activities

Ruediger Leidner, the DBSV tourism representative and ENAT board member, is also member of the **Advisory Board of the German Federal Office on Accessibility** and supported the authority carrying out its **annual congress which had “Easy Travelling” as main issue in 2020**. The congress, originally envisaged end of April, had to be postponed. but it could finally take place and present good practice examples for accessible activities in nature parks and water related tourism with about **40 participants present and virtual access end of September**, just a few days before the second lockdown was announced in Germany.

One of these good examples was the **Global Nature Fund initiative “Nature Without Barriers”** in which besides DBSV several other European countries (Poland, Hungary, Austria) were involved that was selected by the UN as “Official Project of the UN Decade on Biodiversity” in the framework of the special competition “Social Nature– Nature For All” (www.nature-without-barriers.eu/en).

From November 9th to 30th 2020 the ENAT member PREDIF carried out as video conference the II. **“International Tur4All Congress at Smart Destinations”**. Ruediger Leidner moderated the Webinar "Accessibility best practices in urban destinations".

FUNDACIÓN ONCE ACTIVITIES 2020

Training on accessibility in hotels

The online course **“Basic Concepts of accessibility to be implemented in hotels”** was held in June 2020 with the aim of promoting accessibility and health safety in hotels, as well as guaranteeing equal opportunities in the use and enjoyment of the establishment for all people, increasing the quality of services, improving the company's image, providing added value and aligning with the Sustainable Development Goals.

ISO/DIS 21902 Tourism and related services. Accessible Tourism for All. Requirements and Recommendations.

During 2020, the tasks for the drafting of the ISO 21902 Standard on accessible tourism in collaboration with UNE (the only standardisation body in Spain) were completed. It should have been approved in 2020, but due to the pandemic it is delayed to 2021. Among the next steps to be taken in 2021 is the opening of the vote corresponding to the FDIS phase (Final Draft International Standard) managed by ISO and lasting 8 weeks, which will be the step prior to the publication of the ISO standard. The ISO 21902 Standard is expected to be published in the first half of 2021 and on the same date it will be published as UNE-EN 21902 Standard in identical form in Spanish.

Accessible Tourism Destination (ATD) <https://www.unwto.org/form/acces> (2021 edition, entry form)

The creation of the international "Accessible Tourism Destination" distinction arises from the joint commitment of the **World Tourism Organization (UNWTO)** and the **ONCE Foundation**, to recognize and promote accessible tourist destinations. These aims are served by the recognition and dissemination of tourist destinations that make an important effort so that their destination can be enjoyed by any tourist, regardless of their physical, sensory or cognitive abilities.

The ATD is an annual distinction awarded on a worldwide basis by the World Tourism Organisation. It is not an accessible destination certification that ratifies its excellence in this area but a **distinction that highlights the initiatives undertaken so far**, as well as the effort to maintain and increase the level of accessibility achieved. In each edition a distinction will be awarded to a global destination, along with specific special mentions by type of destination.

The ATD focuses on accessible tourist destinations considering the following classifications: urban destination, sun and beach destination, mountain destination, rural destination and cultural heritage destination.

The results of the ATD2019 expert screening were announced on 10 September 2019, on the occasion of the Welcome Reception of the XXIII UNWTO General Assembly, held in San Petersburg (Russia).

There was a public function during FITUR 2020, Spain, to confer officially the ATD2019 to Turismo de Portugal and the special mentions to Turisme Barcelona, Spain, and to Thrissur, Kerala, India.

Project: Way of St. James

The activity to be developed with the support of the Royal Board of Disability has as its objective, the coordination for the **implementation of a digital solution to help pilgrims with visual and cognitive impairment** in particular, but also benefits the general population to orient themselves in a precise way.

To this end, the selected routes will be digitalized. Likewise, **accessible digital content associated with points of interest will be generated and integrated into an application for sensorial guidance.**

The final result of this work will be a mobile application accessible using the digital information of the routes generated with high quality and precision. The user will be provided with accessible audio-described information of the points of interest that will facilitate the interaction and experience both on the route and with the elements of the environment.

ENAT NTOs' Learning Group

About 50 ENAT members participate in the NTOs' Learning Group

- Sharing information on policies, strategies and practical development of accessible, inclusive tourism in destinations.

Only online activities in 2020...

Aiming for closer ties and online and in-presence activities in 2021

Information and Outreach

www.accessibletourism.org

The screenshot shows the ENAT website homepage. At the top left is the ENAT logo and the text "European Network for Accessible Tourism". To the right is the slogan "Working together to make Tourism in Europe Accessible for all" and a photo of an elderly man. A language dropdown menu is set to "English [EN]". Below the header is a navigation menu with items like "About", "Membership", "News", "COVID-19", "Events", "Resources", "Projects", "ENAT Code of Good Conduct", "World Quality Programme", "Accessible Cities", "Themes", "Forum", "Press", and "Contact". A breadcrumb trail shows "You are at: Home". On the left sidebar, there is a search box, a "Members' Area" with "Login" and "Sign up now" links, and a "Subscribe to ENAT E-Bulletin" button. The main content area features a "Listen" button, a "Welcome" message, and a "President's Message: Looking Forward to the Recovery of Tourism" dated "Rome, 20 March 2021." The message text reads: "Dear Friends, Let me begin with a warm welcome to all the ENAT Members who have continued their membership or who have joined as new Associate Members under the fee-waiver scheme which we offered last year as a way of off-setting the economic hardship brought by COVID-19...". To the right of the main content is a "Join now!" button and an "Events" section listing the "ENAT Annual General Assembly 2021 and Expert Panel Discussion - Online" on "11/06/2021".

ACCESS-IT

<http://accessitpro.eu/>

Innovation for Accessible Tourism in Natural and Rural Areas

In Natural and Rural Areas, there is a high demand for nature-based leisure activities. However, even at well-equipped accessible tourist destinations, recreation opportunities and attractions are often inaccessible to many visitors.

ACCESS-IT seeks to address the competence gap in Small and Medium-sized Tourism Enterprises by offering a comprehensive training in the cross-field of accessible tourism, innovation and sustainable development of natural and rural areas. The overall objective of the project is to build capacity of EU tourism SMEs operating in NRAs to bridge accessibility gaps through stakeholder co-design of innovative solutions for tourism products for customers with specific access requirements.

Coordinator: Społeczna Akademia Nauk, The University of Social Sciences, Poland
https://www.accessibletourism.org/?i=enat.en.enat_projects_and_good_practices.2163

Contact: contact@accessitpro.eu

Projects

<https://www.gameswithoutbarriers.eu/>

GAMES WITHOUT BARRIERS: Game-based learning in initial VET for Accessible Tourism.

Funded under the [Erasmus + Programme KA2 VET](#) – Cooperation for innovation and the exchange of good practices.

The project aims to develop new training content on accessible tourism and experiment with innovative game-based approaches and digital tools for training students in catering and hospitality schools in Bulgaria, Italy and Spain.

Coordinator: INCIPIT CONSULTING, Italy

Contact: m.minuti@incipitconsulting.it

IMPACTOUR

<https://www.impactour.eu/>

Horizon 2020 Research and Innovation Project.

The main ambition of the IMPACTOUR project is **to create an innovative and easy-to-use methodology and tool to measure and assess the impact of Cultural Tourism (CT) on European economic and social development and to improve Europe's policies and practices on CT**, strengthening its role as a sustainable driving force in the growth and economic development of European regions.

The project will elaborate on an advanced and adaptable methodology to estimate the impact of CT on EU regional economic growth. **It will combine data analytics algorithms with machine learning and AI approaches to improve policies and actions on CT.**

Coordinator: UNINOVA - INSTITUTO DE DESENVOLVIMENTO DE NOVAS TECNOLOGIAS-ASSOCIACAO

Contact: impactour_geral@uninova.pt

IN-TOUR

<https://in-tour.eu/>

The IN-TOUR project takes place within the overall framework for cooperation in education and training “ET 2020” and will focus on “graduates VET” for **the Inclusive Tourism Manager** profile (ITM) and “undergraduates VET” for **the Inclusive Tourism Frontline Staff (ITFS)**, involving **3 Universities providing Vocational and Educational Training**.

Starting from the definition of two Occupational Profiles, IN-TOUR will design two EU Curricula based on modules and learning-outcomes in order to support their “localization” in 3 EU countries by adapting the courses to the context. Moreover the curricula designed following the ECVET principle can be designed locally at different EQF levels. **The IN-TOUR project will evaluate the flexibility of the Curricula by designing 5 pilot courses in Greece, Italy and Germany**

Coordinator: **AIMS** - ASSOCIAZIONE ITALIANA SCLEROSI MULTIPLA ONLUS, Italy

EYEMMERSIVE <http://www.kerckhoffs.co.uk/index.php/products>

Eyemmersive (EYEM) proposes to create a **Digital Market Place for Immersive Tourism based on VR technologies**. The service concept will provide a new source of income for professional tourist guides in destinations around the globe, delivering [Eyemmersive™](#) local tourism content to extend the reach of tourism operators and provide a promotional opportunity towards independent travellers.

The EYEM project, led by [Kerckhoffs Ltd, UK](#), a Full Member of ENAT, will bring **‘live travel experiences’ to non-tourists and aspiring tourists using high definition 360-degree streaming video and experimenting with live, on-demand immersive travel experiences**. The project explored research and development questions, as well as carrying out pilot testing of **360-degree video recording with professional tourist guides in Greece**.

Partnerships: Actions in 2020

UNWTO and
Fundación ONCE

- Published guidance reports on measures to guard against COVID-19 while ensuring access for all.

Blue Flag
International

- Participated in Blue Flag Jury on accessibility issues.
- Developing new criteria for beach accessibility.

EU Tourism
Manifesto Group

- Contributed to policy statements and press releases on EU COVID-19 measures throughout 2020

FEG T-Guide
Training

- Accredited recently trained “T-Guides” who completed their portfolios in 2020, reaching a total of 61 guides in 9 countries

Partnerships: Actions in 2020

International Standards Organisation - ISO

Participated in new ISO Standard on Accessible Tourism.

- To be published in 2021
- <https://www.iso.org/news/2016/09/Ref2123.html>

CEN-CENELEC European Standards Committee

Participated in CEN JTC 11 on EC Mandate M/420

CEN-CLC/JTC 11 recently published [EN 17210:2021 'Accessibility and usability of the built environment - Functional requirements'](#). The standard describes basic, common minimum functional requirements and recommendations, applicable across the full spectrum of the built environment, for an accessible and usable built environment, following the Design for All/Universal Design principles which will facilitate equitable and safe use for a wide range of users, including persons with disabilities.
