

Aiding Ukraine: Social service organisations you can support

On 24th February 2022 the Russian Federation's military forces began an invasion of Ukraine, resulting in a political, economic and humanitarian crisis. Persons with disabilities and other vulnerable groups, including older people and children, are particularly at risk during this war. Many people and organisations have contacted EASPD to ask how you can help with the situation. An initial measure we would recommend would be to send financial support to organisations on-the-ground. In this document you can find the details of EASPD members and partners who are supporting those impacted by the war in Ukraine, both within Ukraine and in the countries bordering the country, and further information on how you can contribute.

EASPD has carefully identified a Ukrainian organisation – the National Assembly of Persons with Disabilities of Ukraine- who are actively supporting persons with disabilities and their families in Ukraine and have the capacity to act locally through their members.
