ENAT's Mission Statement

The mission of the European Network for Accessible Tourism is to make European tourism destinations, products and services accessible to all travellers and to promote accessible tourism around the world.

- ENAT aims to achieve this by bringing together sector actors to share their experience, learn from each other and collaborate.
- ENAT promotes wider awareness and understanding of the need for accessibility in all areas of travel and tourism throughout Europe.
- ENAT supports the development and spread of good policies and practices.
- ENAT works to develop knowledge and expertise on accessibility issues in the European tourism field.
- ENAT provides a platform for those who support accessibility in tourism, and a representative voice towards National, European and International institutions and organisations whose actions have a direct influence on the tourism sector.

Further information about ENAT is available on the Web at:

Germany

By Ruediger Leidner, ENAT Board. (German Federation for The Blind and Partially Sighted - DBSV).

Accessible Tourism Day at the ITB Travel Fair in Berlin

As active member of "Tourism For All Germany" (NatKo) DBSV was regularly involved in the organisation of the Accessible Tourism Day which up to 2019 took place annually during the ITB Travel Fair in Berlin (2019 already the eighth time). Key theme in 2019 was "Beyond target group specific accessible tourism products" to underline that accessible tourism products are useful for a much larger group of tourists than tourists with disabilities only.

The feedback to these conferences which have been attended by about 200 people every year (mostly professionals of the tourism industry present as exhibitors at the ITB Convention) has been very positive over the years. ENAT was also invited and took part several times in the conference.

Dissolution of NatKo (Tourism For All Germany)

NatKo was founded in 1999 by several German disability organisations to promote the idea of Tourism For All in the society. DBSV was active as board member and president. NatKo gave advice to tourism enterprises public authorities and also parliamentary committees with regard to accessibility issues.

At the end of 2018, however, several federal ministries not only refused to grant money for new projects but also to continue their support for running projects of NatKo such as the standardised labelling system "Travel For All".

Since the member organisation could not compensate this unexpected closedown of political support with our own financial contributions NatKo became insolvent. In June 2019, three months before NatKo's 20th anniversary, the Annual General Assembly was forced to dissolve its common platform for tourism accessibility issues.

Standardized German Labelling system for accessible tourism products/establishments

This information and labelling system commissioned by the Federal Ministry for Economic Affairs and Energy in 2011 has been carried out in cooperation of NatKo and the German Seminar on Tourism, an association of the tourism industry. The audited and certified establishments are presented in a database in English at

<https://www.germany.travel/en/ms/barrier-free-travel/experience-barrier-free-travel-in-germany.html>.

The number of tourism establishments that received a certificate – about 2.500 in 2017 (40 % accommodation establishments) – could not be extended since then.

DBSV was involved in this project as board member of NatKo and as member of the project advisory committee. Even though the German Seminar on Tourism gets further support to continue this project, it is doubtful if and how people with disabilities will now be involved in further planning and decision making.

PRM-Dialogue at the German Aviation Association

In 2015 the German Aviation Association invited representatives of airports, airlines, disability organisations and organisations of older people to discuss accessibility issues of passengers with disabilities. DBSV was invited to this „PRM-Dialogue“ which has been taking place since then at least once a year.

In 2019 the brochure concerning the questions that people with disabilities should clarify before booking a flight which was elaborated by a working group of representatives of disability organisations and organisations of the aviation industry was adopted and published in German (<https://www.bdl.aero/de/themen-positionen/sicherheit/barrierefreies-reisen-mit-dem-flugzeug/>).

Accessibility of airports and the information and entertainment system in aircrafts

In the above mentioned PRM-Dialogue DBSV also addressed the missing accessibility of the information and entertainment system in most aircrafts for passengers with sensory disabilities.

In 2019 a representative of Boniglobal (www.boniglobal.com) presented in the DBSV office in Berlin a navigation system for people with visual impairments to be used at the airport (www.loudsteps.com). According to Boniglobal it was commissioned by Airbus and is already implemented at two airports for a pilot phase. This representative was interested – funding presupposed – in my proposal to improve the accessibility of the information and entertainment system in the cabin.

In this context the approach presented in the US Senate’s Special Committee on Aging might be helpful. Since airlines are not subject to the Americans with Disability Act members of the Democratic Party introduced a proposal for the “Airline Information and Entertainment Access Act”. To ensure equal access of all passengers to safety information and the entertainment system during flights.

UNWTO Accessible Tourism Destination (ATD)

The creation of the international "Accessible Tourism Destination" distinction arises from the joint commitment of the World Tourism Organization (UNWTO) and the ONCE Foundation, to recognize and promote accessible tourist destinations.

These aims are served by the recognition and dissemination of tourist destinations that make an important effort so that their destination can be enjoyed by any tourist, regardless of their physical, sensory or cognitive abilities.

The ATD is an annual distinction awarded on a worldwide basis by a specialized agency of the United Nations such as the World Tourism Organization. It is not an accessible destination certification that ratifies its excellence in this area but a distinction that highlights the initiatives undertaken so far, as well as the effort to maintain and increase the level of accessibility achieved.

In each edition a distinction will be awarded to a global destination, along with specific special mentions by type of destination.

The ATD focuses on accessible tourist destinations considering the following classifications: urban destination, sun and beach destination, mountain destination, rural destination and cultural heritage destination.

The results of the ATD2019 expert screening were announced on 10 September 2019, on the occasion of the Welcome Reception of the XXIII UNWTO General Assembly, held in San Petersburg (Russia). There was a public function during FITUR 2020 to confer officially the ATD2019 to Turismo de Portugal and the special mentions to Turisme Barcelona, Spain, and to Thrissur, Kerala, India. UNWTO NGO Innovation Award.

The 'Amuse' project, promoted by Fundación ONCE and developed by ILUNION Tecnología y Accesibilidad, was awarded the World Tourism Organization (UNWTO) Prize for Innovation in Non-Governmental Organizations. The awards were presented during the closing ceremony of the General Assembly of the international organization that had taken place in St. Petersburg.

The UNWTO Awards recognized the contribution of public and private institutions, as well as non-governmental organizations (NGOs), to the development of a more competitive, responsible and sustainable tourism sector that strives to achieve the Agenda 2030 for Sustainable Development and its 17 ODS.

ISO/DIS 21902 Tourism and related services. Accessible Tourism for All. Requirements and Recommendations.

During 2019, the following actions have been carried out, including 3 virtual meetings of Working Group 14 as well as 1 face-to-face meeting in Malaga: The comments received during the CD phase have been dealt with, with the holding of a new specific virtual meeting on section 4.5 (built environment), on January 15, 2019, where the voluntary nature of the ISO 21542 standard was confirmed, which is mentioned as an informative reference.

Subsequently, a complete revision of the draft as a whole was carried out in which all the changes accepted during the successive meetings of WG 14 after the CD phase were implemented and the consistency of the document was reviewed,

avoiding repetitions and improving the balance between the different chapters of the draft.

Once the document was revised, it was sent to ISO for the processing of the next phase (DIS - Draft International Standard). DIS is the last phase of consultation in which technical changes could be made to the document. The DIS phase is addressed to all ISO countries (extending the country scope as compared to the previous consultation) and for its approval 2/3 of the Participating countries in favour and no more than 1/4 of the votes received against are required. The DIS vote lasts for 12 weeks and finally opens from July 11 to October 4, 2019. The draft ISO/DIS 21902 is circulated and several reminders are sent to countries to cast their vote. At the national level, wide dissemination takes place culminating in the meeting of CTN 170/GT5.

To analyse the results of the DIS vote and the comments received during this phase, the WG 14 Accessible Tourism meeting was held in the framework of the III International Congress on Technology and Tourism for Diversity organized by Fundación ONCE on October 23-24, 2019, during which the ISO 21902 standard was presented and mentioned in numerous presentations. The WG14 meeting held on 21 and 22 October 2019 was a great success with the participation of 23 experts from 9 countries and 4 liaison organizations. More than 300 comments were received. There are two main reasons for this high number of comments: on the one hand, the consultation has been extended to a larger number of countries and on the other hand, the DIS phase is the last stage where technical comments to the document are addressed. During the meeting, WG 14 addresses and resolves almost 200 of the 340 comments received. See annex B.C for the minutes of the meeting

To conclude with the comments that were left pending, two additional virtual meetings of the WG14 Accessible tourism were held in November 2019.

The next steps to be taken in 2020 include sending the document to the FDIS (Final Draft International Standard) phase, which lasts 8 weeks and is the step prior to the publication of the ISO standard.

It is expected that ISO 21902 will be published around December 2020 / January 2021 and that on the same date it will be published as UNE-EN 21902 in an identical way in Spanish.

RARE N ROLL – China Study Tour to Madrid, May 2020

Fundación ONCE hosted a meeting of the 10 Chinese delegates at its premises, providing an in-depth presentation of the work of the foundation.

Project: Way of St. James

The activity to be developed with the support of the Royal Board of Disability has as its objective, the coordination for the implementation of a digital solution to help pilgrims with visual and cognitive impairment in particular, but also benefits the general population to orient themselves in a precise way. To this end, the selected routes will be digitalized. Likewise, accessible digital content associated with points of interest will be generated and integrated into an application for sensorial guidance. The final result of this work will be a mobile application accessible using the digital information of the routes generated with high quality and precision. The user will be provided with accessible audio-described information of the points of interest that will facilitate the interaction and experience both on the route and with the elements of the environment.

- Accessible Tourism Strategic Plan for Benidorm.
- Consultancy for the drafting of an Accessibility Plan for Old Havana, Cuba.
- Congresses Organised

1st TUR4all Congress: accessible cruise destinations. Valencia, 3 December. Organised by PREDIF, the Spanish Secretariat of State for Tourism and the Valencia Regional Government.

Cruises are no longer a luxury only to be enjoyed by the lucky few. According to CLIA (Cruise Lines International Association) this type of tourism is on the rise, and for some time now, a growing number of people are choosing this type of travel experience. But what happens in the case of a person with reduced mobility? Are they able to get around on their own once they disembark at a destination? The congress, which lasted one-and-a-half days, advocated the normalisation of accessibility in cruise tourism, focusing on the needs of people with disabilities or reduced mobility, families with young children and the elderly.

The event was aimed at professionals from the tourism sector at cruise destinations, shipping companies, tour operators and travel agencies, both Spanish and foreign.

There were 39 speakers, 10 of which were from outside Spain, with 244 participants in total. 13% of delegates were from outside Spain, originating from: Italy, Portugal, Netherlands, Israel, Andorra, the US, and India.

- Participated in preparatory work for roll-out of the World Tourism for All Quality Programme in Sweden.
- Participated in ISO Working Group 14 on Tourism for All Standard.
- Initiated accessible tourism research project in the context of post-graduate studies at University of Lund.

United Kingdom

- Ivor Ambrose acted as Managing Director of ENAT, managing the international Secretariat, organising and participating in projects and events in Europe and overseas (see Projects section and Events section).
- ENAT Associate Member, Chris Veitch continued for a third year as the [UK's Disability Champion for the Tourism Sector](#) appointed by Her Majesty's Government. Chris is a Trustee of the UK NGO "Tourism for All".

2.3 ENAT Fund-raising, Sponsorship and Recruitment

The sources of funding for the ENAT association are:

- Membership fees
- Sponsorship and donations
- Income from consulting work conducted by members on behalf of the association
- Project funding.

In 2019, membership fees and project income contributed to ENAT's budget.

Project income was used exclusively to pay the project costs (experts' fees, subcontracting, travel, per diems and related expenditure) and travel subsidies for Board members to official meetings.

No equipment or fixed property was bought by ENAT in 2019.

The ENAT Financial Report 2019 and budget 2020 is available to ENAT Members in a separate document (published June 2020).

2.4 Recruitment

One of the key functions of ENAT is to act as a point of reference, not only for its members, but also for organisations around the world that are working towards a common vision of accessible tourism for all. The ENAT Board considers proposals from members who wish to nominate persons for Honorary Membership. Nominees should share ENAT's objectives and be willing to make a positive contribution to fulfilling ENAT's mission.

2.5 Full Membership Candidates

Applications for Full ENAT Membership submitted in 2019:

- Dr. Selvakumar Ramachandran, Kerckhoffs Ltd, UK
- Architect Katerina Papamichail, Expert in Accessibility and Universal Design

Both candidates were unanimously approved by the ENAT Board as Full Members.

The ENAT Board invites Full Membership applications from Active Associate Members and strongly encourages them to step forward to support the work of ENAT and reap the full benefits of membership.

3. ENAT Publicity and Outreach

3.1 ENAT Web Portal Development

In 2019 the ENAT portal continued to provide the features and services which were developed originally in 2006 – 2008 by EWORX S.A.

In 2019, as part of the continuous improvement of the site, some additional (back-office) features were implemented in connection with upgrades of the “TOOLIP” Web Content Management System (CMS).

ENAT also disseminates its information via various social media channels:

- Facebook webpage <https://www.facebook.com/accessibletourism>
- Twitter page <http://twitter.com/#!/EUaccesstourism>
- LinkedIn Accessible Tourism Group:
http://www.linkedin.com/groups?gid=4003674&trk=hb_side_g
- ENAT e-Bulletin - direct email via Mailchimp to Members and subscribers
- Accessible Tourism News (e-newspaper): - subscribe to receive every Monday at <http://paper.li/f-1315995457>

and social media channels related to on going projects.

Social Media followers, - FaceBook and Google analytics (recorded June 2020):

- ENAT Facebook followers. Likes: 3,286 (up from 3,100 in June 2019)

Total Facebook page views, Jan – Dec 2019

- ENAT Accessible Tourism Group: 1,105 members (up from 676 in June 2019)

FaceBook Group Posts, 1 July to 31 December 2019

- ENAT Twitter followers: 1,545 Followers, up from 1,237 in June 2019
- ENAT LinkedIn Group members: 2,395 (up from 2,323 in December 2018).
- ENAT E-Bulletin subscribers and related ENAT mailing accounts: over 2,400
- Pantou Facebook followers. Likes 798 up from 741 in June 2019.

3.1.1 Regional websites

In 2019 the ENAT portal was only updated in the English edition.

3.1.2 e-Bulletin

A semi-automated emailing system, adopted in 2009 (www.mailchimp.com), continued in use in 2019, sending e-Bulletins to over 1,400 subscribers. (Number fell due to GDPR requirements).

During 2019, ENAT sent out **6 e-Bulletins** to members and subscribers. The bulletins can be viewed at this page <http://www.accessibletourism.org/?i=enat.en.newsletter>

3.1.3 On-line Resource Centre

The ENAT website constitutes the digital resource centre of the network. It is available in English with News, Publications, Links, Projects, Good Practices, Forum articles, etc. See: <http://www.accessibletourism.org/?i=enat.en.resources>

All pages can be translated immediately by the in-built “**Google Translate**” feature.

Through the generous support of **ReadSpeaker** since 2015, the ENAT Webpages (English edition) are made accessible to people who may not be able to read the text or who are less familiar with English as a foreign language. Just click on the “Listen” button at the top of each page. No software installation is necessary – it just works. You can adjust the reading speed and text highlighting according to your preference

The main English language web pages at www.accessibletourism.org included **2,157 unique articles** by the end of December 2019. This is an increase of about **61 items** since 31 December 2018.

Web search by Google for: “Accessible Tourism”

Again in 2019, as in previous years, using “Google” search for the phrase “*accessible tourism*” consistently lists www.accessibletourism.org on the **first results page**.

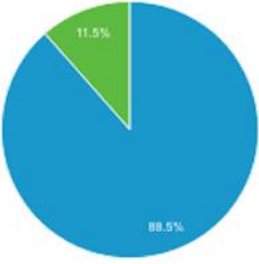

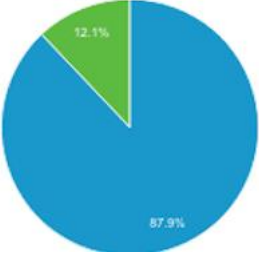

The following image taken from “Google Analytics” shows a summary of site visitor usage from January to December 2019, compared with the same 12-month period in 2018.

See next page.

3.2 ENAT Print Publications

3.2.1 Publicity Leaflets

ENAT Printed flyers were not produced in 2019.

3.2.2 ENAT Code of Good Conduct Commitment Label

The ENAT Code of Good Conduct, launched in 2009, has been signed by over 100 ENAT Members by the end of 2019.

Businesses and organisations that sign up to the Code receive a commitment certificate recognising their efforts to promote accessible travel and tourism.

- The ENAT Code of Good Conduct is *the first and only international labelling scheme for the promotion of ethical business standards in Accessible Tourism for All*.

- The Code consists of 8 guiding principles which businesses and organisations follow, so as to make travel and tourism accessible for all visitors who experience access difficulties. These customers may need better access and services due to disability, long-standing health problems, age-related conditions or other temporary or permanent personal conditions which restrict their access.
- The guiding principles of the Code are based on the objectives of ENAT, (as contained in the [Association's statutes](#)), and also on sound and ethical business practices which enhance accessibility, sustainability and the quality of customer service.

Details of the Code of Good Conduct commitment label and how to obtain it are published on the ENAT website at: <http://www.accessibletourism.org/?i=enat.en.enat-code-of-good-conduct>

4 Working Groups and Projects

4.1 ENAT Policy Group

During 2019, a number of issues related to ENAT's policies for accessible tourism development were taken up in discussions by the ENAT Board and Board Members, and with several outside parties.

- Members of ENAT led workshops, conference sessions and gave presentations on numerous subjects related to accessible tourism policy throughout 2019. (See list of **Events, section 3**, above).
- ENAT continued its work as an official liaison organisation of ISO in the **ISO Working Group 14 on "Accessible Tourism for All"**, established under ISO Technical Committee 228 Tourism Services, to help develop the new global Standard on Tourism for All.
- ENAT continued its work as liaison organisation with CEN-CENELEC, contributing to the Standards work of the **Mandate M/420 (Phase 2) on Public Procurement of the Accessible Built Environment**.
- ENAT contributed to discussions and policy documents in the European Tourism Manifesto Group.
- ENAT participated in the Expert Judging panel for the UNWTO/Fundación ONCE "Accessible Tourism Destination" recognition. [Turismo de Portugal](#) was awarded the first international distinction of Accessible Tourism Destination (ATD2019), launched to recognize those destinations that are making laudable efforts so that they can be enjoyed by all tourists, regardless of their physical, sensory or cognitive abilities. In the last decade, Portugal has made outstanding efforts to make its tourism infrastructure, services and products more accessible nation-wide.
- [The city of Barcelona](#) (Spain) was conferred a special mention as an exceptional urban tourism destination, while the city of Thrissur in Kerala (India) received a special mention as an emerging destination on the global accessible tourism market.

4.2 Accessible Tourism Projects & Good Practices

The ENAT Secretariat continued to collect and publish "Projects and Good Practices" on the ENAT website, reaching a total of over 150. Each project or good practice has its own profile page where the project aims and objectives, partners and contact details are shown. (Not all projects are carried out exclusively by ENAT members).

Visit:

http://www.accessibletourism.org/?i=enat.en.enat_projects_and_good_practices

In 2019 two **ENAT Forum articles** were published on the ENAT website.

See: <https://www.accessibletourism.org/?i=enat.en.forums>

Meanwhile over at <https://Pantou.org> three original Blog posts were published on various topics.

See: <https://pantou.org/blog>

ENAT Members are welcome to submit Forum Articles or Blogs to raise issues for discussion, publicise their work or publish new information of interest to the Membership.

4.3 ENAT World Tourism for All Quality Programme – Pilot Phase continuation, 2019

The first three certified hotels were awarded their certificates at a ceremony at Tourism Flanders HQ in Brussels and their details were published on the website of www.Pantou.org in June 2018.

The World Programme has a number of characteristics, some of which are mentioned here:

- Only Full ENAT Members can apply to become “Licence Holders” for their region or country. They will act as recruiters, consultants, trainers and access auditors in the roll-out of the Quality Programme worldwide;
- The Accessible Tourism Directory, www.Pantou.org is used as the online platform for displaying new accredited businesses, taking advantage of our existing website and helping businesses to gain more visibility;
- The “Pantou Access Statement” is used as a guideline for hotels/businesses when developing their Access Guide, which is an integral part of the Quality Programme;
- The ENAT Code of Good Conduct is included as a foundation stone for enterprises to build their accessibility “policy”.
- In the first phase, only hotels have been certified under the Quality Programme
- Criteria have been developed for other types of tourist venues (restaurants, retail and shopping malls) in order to audit their services and facilities.

Information about the World Quality Programme is published on the ENAT website at: <https://www.accessibletourism.org/?i=enat.en.world-quality-programme>

5. Pantou.org Previously supported by EU COSME. Self-funded since 2018.

Project details are shown on the ENAT Website at:

<https://www.accessibletourism.org/?i=enat.en.projects>

4.6 UNWTO – ENAT – F.ONCE Collaboration Agreement

The collaboration agreement between the three organisations serves as a concrete step towards realising the actions specified in the [Declaration, “One World for Everyone”](#), signed by delegates including ONCE and ENAT, and witnessed by UNWTO at the [“Destinations for All World Summit” in Montreal, October 2014](#),

ENAT warmly thanks Fundación ONCE and UNWTO for their continued collaboration on matters concerning the development and promotion of Accessible Tourism for All at the global level.

The MoU signed between Blue Flag International and ENAT continued in 2019, with Jesus Hernandez and Alicia Barragan (Fundación ONCE), Katerina Papamichail and Ivor Ambrose acting as experts.

4.7 World Network/Organisation of Accessible Tourism

In 2019 the ENAT Board continued to discuss the possibility of establishing a broader cooperation with partners and organisations, including regional associations, conferences, enterprises, national and regional tourist boards, NGOs, advocacy groups, professional bodies, projects and individuals to join and share their information.

Plans were put in place in 2019 to develop a new Online Community for ENAT Members, enabling greater outreach to organisations around the world and encouraging them to join the network. A new (modernised) ENAT website and the ENAT Online Community will be prepared in 2020.
